DECORATIVE CABLE LIGHTS™

Cable Lights are a new, unique lighting product offered for home decor. The most flexible, elegant, illumination available for any indirect lighting effect, Cable Lights create an exciting nighttime dimension that provides soft, safe and economical lighting for any area of the home.

Easy to install with no transformers needed, plug up to 150 ft. of Cable Lights directly into any standard 110 volt household outlet. Efficient lighting with low power consumption, each 10 foot length of Cable Lights draws less than a 60 watt bulb! Cable Lights also work with any standard UL approved household dimmer for different light level effects.

With Cable Lights full line of mounting components and accessories, your decorative lighting applications are unlimited.

25,000 Hour Rated Bulb Life*

Usage Chart

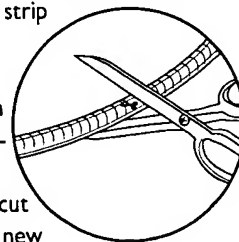

Per Night Usage In Hours	Hours per Year	Maximum Bulb Life
4	1460	17 Years
6	2190	11 Years
8	2920	8.5 Years
10	3650	6.8 Years
12	4380	5.7 Years

*Bulb life chart based on projected maximum life. Average bulb life will vary depending on usage conditions.

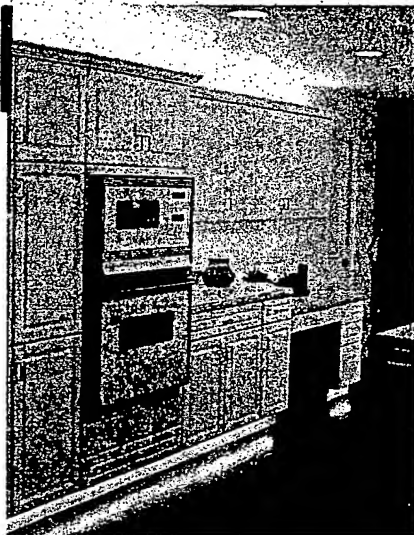

Manufactured under strict quality control standards, Cable Lights are a parallel series of long lasting micro-tungsten bulbs, wired on one inch centers and then extruded in a solid PVC "clear view" resin core.

If one bulb burns out, balance of bulbs continue to light. With Cable Lights "clear view" PVC resin, light continues to pass through and illuminate the Cable Light strip reducing any dark spots.

Cable Lights can be cut every 18" with common scissors. Cut points are clearly marked. If several bulbs were to eventually burn out in a series, simply cut section between cut points and install new section with Cable Lights Splicer accessories.

Cable Lights have been engineered with child safety in mind. Unlike halogen or other standard light bulbs that can burn, Cable Lights are warm to the touch only with child safe bulbs encased completely in our tough PVC jacket.

Listed by Underwriters Laboratory, Cable Lights are approved for both indoor and outdoor use and come with a one year limited warranty.
